The broad value estimate is calculated from make and year; it is not based on current market listings.

⚠️ **Natural disaster history: Unavailable**

TOYOTA COROLLA D-4D 90 (1.4) TERRA (2015) Illustrative Value Estimate

A broad formula estimate using make and year; it does not use current listings, mileage, condition or a live transaction quote.

Lower Estimate	Mid-Range Estimate	Upper Estimate
€4,600	€6,500	€8,900

ℹ️ This estimate is not a market benchmark, offer price or valuation advice. Compare current local listings and get an independent inspection.

Euro NCAP Safety Assessment

Model/year/variant-specific Euro NCAP ratings are shown only when available from a verified source.

Model/year/variant-specific Euro NCAP result: Unavailable

Adult Occupant	Pedestrian Protection	Child Occupant	Safety Assist
N/A	N/A	N/A	N/A

How to check a Euro NCAP rating

No model-specific Euro NCAP result is available in this report. Check the exact vehicle version and test year in Euro NCAP's official results.

Euro NCAP publishes results for specific vehicles and assessment years. Safety test methods and categories can change over time, so do not transfer another model year or version's result to this vehicle.

This report does not include an independently verified Euro NCAP result. Search the official Euro NCAP safety ratings and confirm the exact vehicle version and assessment year before relying on a result.

General Pre-Purchase Inspection Checks

General inspection reminders; not model-specific defects or vehicle condition findings.

Safety Recalls: Not checked — no manufacturer recall source is connected

Vehicle identity and documents

Match the VIN and registration on the vehicle with its documents; resolve any mismatch before paying.

Service records

Review dated maintenance records and check that the entries make sense alongside the recorded mileage.

Warning lights and controls

Check the vehicle using its owner's manual and ask about any warning light or control that does not behave as expected.

Independent inspection

Ask an independent mechanic to assess the car's present condition; a history report cannot do this.

Ownership Cost Breakdown, City Emissions & Practicality

Estimated operating expense models, clean air zone ratings, and factory cargo dimensions.

ESTIMATED ANNUAL FUEL COST

Estimate: €1,450

Estimate based on 14,000 km annual mileage

ESTIMATED COST TO FILL TANK

Estimate: €82

Estimate: 50 Litres capacity

INSURANCE RATING GROUP

Estimate: Group 14 of 50

Estimate; not a live insurer quote

LONDON ULEZ STATUS

Estimate — confirm with the official service

Estimate — confirm with the local authority

BOOT / CARGO SPACE

Estimate: 380 Litres

Seats Down: Estimate: 1,270 Litres

OEM TYRE & PRESSURE

Estimate: 205/55 R16

Estimate: 32 PSI front / 30 PSI rear

Estimated Towing Weight (Braked): Estimate: 1,200 kg **Estimated Towing Weight (Unbraked):** Estimate: 620 kg **Road Tax Band:** Unavailable

SOURCE-AWARE REPORT
PARTIAL

Report Scope & Limitations

How to interpret vehicle information, estimates and unavailable checks.

Please Note: This report may contain vehicle identity or specification values returned by connected sources, formula estimates and checks marked unavailable or not verified. A check is only confirmed when its result is returned by a connected source. Records may be incomplete, delayed or incorrect; this report is not a government certificate.

1. A missing, unavailable or not-checked history result does not establish that no event occurred.
2. Formula-based values are estimates, not live market prices, insurance quotes or valuations.
3. Physical mechanical condition, roadworthiness and chassis integrity require an in-person inspection.
4. Vehicle identity and record accuracy should be checked against the car, its documents and relevant official services.

This independent report is informational only. Use the relevant official services and arrange a physical pre-purchase inspection before making a decision.

Thank you for using CarHistory.report.
